Downloading Traffic Signs dataset

Step 1. By using following link, download full archive of images with *Traffic Signs* and annotation *txt* file from official resource: archive.zip

Step 2. Create a folder with name *ts* to keep everything organized. For example, create it inside folder *Downloads*.

Step 3. Open archive by using any program you have and select 900 images plus two *txt* files. Extract them into created folder *ts*. You should have following:

- *Downloads/*
  - *ts/*
    - *00000.ppm*
    - *00001.ppm*
    - *...*
    - *gt.txt*
    - *ReadMe.txt*
